The Experience of Authentic Luxury ™
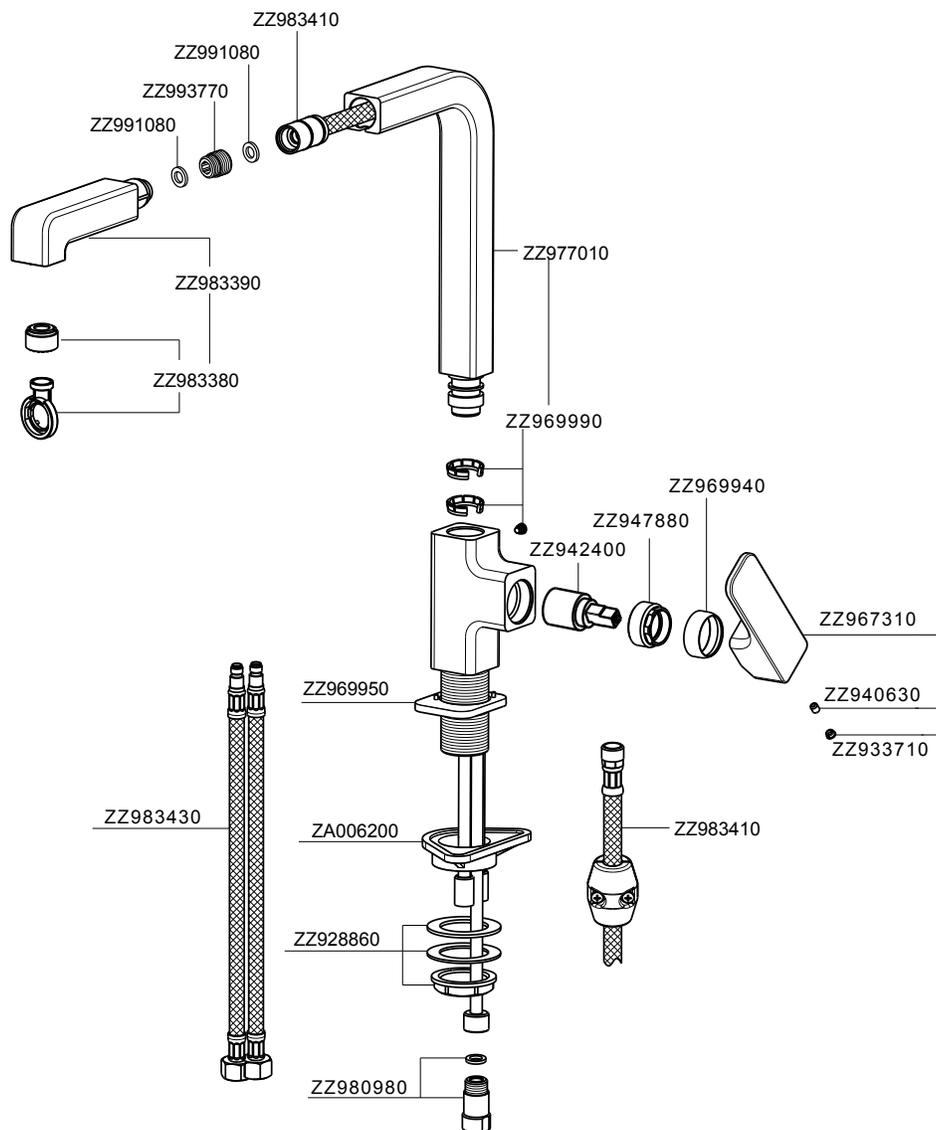

CARE & MAINTENANCE

Maintaining Your Faucet Finish

No matter which finish you select, here are a few simple steps to keep your ROHL kitchen and bath fixtures looking beautiful for years:

- Daily, pat the fixture dry with a soft cloth after each use - this is the single most important care you can give any finish!

- Occasionally, use a mild clear liquid soap with a neutral PH balance and water to gently clean your faucet. Do not use Dove or anti-bacterial soap. these products will leave a residue that could harm your finish.

- When necessary, a 50/50 solution of vinegar and water can be applied to remove hard water deposits. Do not soak the product in the solution. Vinegar is a mild acid which will harm the finish with prolonged contact.

- Avoid all cleaning products that contain ammonia, bleach, and alcohol. They may damage the finish. Use clear liquid soap with a neutral PH balance.

- Care and use products mentioned in this brochure may be ordered through your local ROHL retailer.

1. WIPE DOWN AFTER USE TO AVOID SPOTTING
2. USE A SOFT CLOTH FOR DETAIL CLEANING
3. DO NOT USE SPRAY CLEANERS WITH AMMONIA, ALCOHOL OR BLEACH
4. DO NOT USE ABRASIVES LIKE COMET, AJAX OR BONAMI

| FINISH	CLEANING	CARE
POLISHED CHROME	50/50 VINEGAR AND WATER	FLITZ WAX OR GAGNON'S SX
SATIN NICKEL	50/50 VINEGAR AND WATER	FLITZ WAX OR GAGNON'S SX

FOR WATER SPOTTING ON POLISHED CHROME, USE SIMICHROME PASTE.
